

JOB POSTING

SENIOR MANAGER—FORENSIC ACCOUNTING

Job Description (Chicago, IL)

Cendrowski Corporate Advisors (CCA) is a full-service financial and operations consulting firm with offices in Bloomfield Hills, MI and Chicago, IL. Since 1983, CCA has served Fortune 500 clients, closely-held corporations, private equity funds, banks, and attorneys.

CCA's continued growth in both of its home markets necessitates the immediate hire of a qualified senior manager in the area of forensic accounting. This individual will have the opportunity to grow with our firm as it continues to expand its reach with new clients and in new locations. We strive to create an environment replete with collaboration, partnership, and mutual respect. Balancing commitments to family, clients and the community in which we live and work are core principles in our professional environment.

Our forensic accounting group performs a wide range of engagements. We are actively involved in complex fraud investigation; fraud deterrence; risk management; lost profit; commercial dispute; shareholder dispute; and, digital forensics engagements. CCA's team members are frequently asked to present findings and conclusions as expert witnesses in court.

By joining our group, you will interface with a talented staff of senior and associate-level professionals. Members of our forensic accounting group are recognized experts in their field. They hold numerous professional and academic certifications and licenses in addition to having authored several books on fraud deterrence and risk management. As a member of our forensic accounting team, you will be responsible for:

- Analyzing case documents, performing financial analysis and technical research, and preparing reports for the firm's cases;
- Assessing process risks, flowcharting business processes; identifying and evaluating the design of controls; and making the initial determination of critical issues;
- Assisting in risk management process design and suggesting changes to strengthen, automate, and/or simplify controls.

Required

- Minimum of 10 years of forensic accounting experience;
- Demonstrated business development experience;
- Ability to successfully build and manage a book of business;
- Comprehensive understanding of prevailing issues related to forensic accounting and the positions of various governing bodies such as the AICPA, SEC, IRS, FASB, and relevant court cases;
- CFF, CFE, CFFA, CFD, or CAMS credentials;
- Demonstrated ability to manage client and staff relationship;
- Excellent report writing ability;
- Strong oral communication skills;
- Strong analytical skills;
- Proficiency in all Microsoft Office products;
- Bachelor's degree in accounting, finance, or related field.

Cendrowski Corporate Advisors is an Equal Opportunity Employer. We will not discriminate between applicants for reasons of gender, race, religion, color, nationality, ethnic origin, sexual orientation, marital status, age, veteran status, or disability.
